Connecting via wireless:
1. Connect to SSID: Guest, then open a web browser where the Williams page will appear.

2. Supply the following login ID and password (both case-sensitive):
   user name: classof2014
   password: commencement2014

3. A pop-up will appear (ensure your pop-up blocker is turned off) prompting you not to close it. If you are successful, you are now connected to the wireless network, and will be redirected to your default home page.

This login is provided to you for use only while attending Commencement only. Please use responsibly.

Williams wireless works in all campus buildings. It should also work on the Commencement site and in many places adjacent to campus building.
